# WOOD

## Inspiration

### Unique style in harmony with nature

Nothing is more soothing to our mind than the colors and textures taken from the world of nature. This is because what is best is reflected in nature. When creating the collection of wood-like tiles, we focused on the combination of beauty and uniqueness of wood with durability and strength of porcelain stoneware and clinker tiles. The new collections amaze with their colors and structure, creating a unique mood in every interior.

They are an exceptional material both for modern and classic concepts.

Thanks to the digital print technology, the fine grain texture of wood has been reflected with extraordinary craftsmanship. The tiles can successfully replace wood, while keeping their warm material for both modern and classic concepts.

Raw elegance

# NICKWOOD

Inspiration for the creation of the Nickwood collection comes from the beauty of natural wood. Tiles with a matte surface and a non-uniform structure are perfect imitation, and a modern interpretation of raw wood boards.

The special abrasion marks on the surface are also very characteristic for rough timber. They add originality and a unique effect to any interior.

# CALACATTA GOLD

The Calacatta Gold collection is where we find beautiful veining patterns of luxury marble in porcelain stoneware tiles to add glamour and timeless elegance to the interior. Tiles in white and grey colors, with slight gold tinting, brighten and revitalise the arranged space, and in combination with distinctive accents of the decors, add a unique character to the interior. An appropriate selection of the Calacatta Gold tile format gives the impression of a monolithic block of marble.

The matte or polished surface of porcelain stoneware tiles, with their delicate structure, allows not only for their arrangement on large surfaces such as walls and floors, but also for the creation of distinctive patchwork decorations in specific areas.

The combination of regular tiles with decors from the Softcement collection looks great in modern bathrooms and kitchens.
